

# Open Toe Foot

Use the Open Toe Foot for Appliqueing with a satin stitch, blanket or button hole stitch, taper stitches, and when stitching other decorative stitches.

The tunnel on the underside feeds smoothly over stitches of any width and length. The open front gives greater visibility for accuracy.

This foot is available in metal or clear view. The clear view makes it easy to match rows of stitches perfectly.

How to use the Open Toe Foot

1. Snap on Foot.
2. Choose a decorative or satin stitch, adjust stitch length and width if needed.
3. Sew.

Stabilize if needed.

Decorate anything: Here is some of my ideas - What's your idea?

Embellish or applique on... jackets, vests, aprons, pillows, quilt blocks, etc.

Decorate along the borders of pillows, quilts, wall hangings, table runners, place mats.

To stitch binding and hems to finish items decoratively.
